Your proposed practical training start date should be within 60 days of your end date. For example, if your program end date is June 30, your start date should be between July 1 and August 30. Your end date would be between June 30 and August 29 of the next year.
If you are applying and have not been studying in the US for one full academic year, you may not be eligible for OPT.

If you are on filing fee, you may not be eligible for on-campus employment. If you are still employed during your last quarter, you should discuss this with your department and an International Student Advisor to make sure you have authorization through your graduation date.
Your advisor must complete the Advisor Certification portion of the request form, including the expected program completion date.

Program completion date: For undergraduates, this is the last day of the quarter you will graduate. For graduates, this is the date you expect to file your thesis or dissertation.
